**Adopt-a-Park
Program**

Give Back! Have Fun! Adopt A Park!

What is Adopt-a-Park?

The Adopt-a-Park program is an excellent opportunity for local organizations and groups to help keep Huber Heights Parks beautiful. The City owns and maintains over a dozen city parks and can always use extra help with landscaping, painting and other minor maintenance projects throughout the year.

Which Park can I adopt and When?

The City of Huber Heights offers opportunities to all Parks enthusiasts. Your community group can adopt a single park for one full year, or choose a date and single project for which to adopt a Park.

If you would like to Adopt-a-Park for a year, beginning January 1st of each year, simply fill out an application available at City Hall or at hhoh.org. City staff will review your group's application and provide guidance and approval. This commits your group to a Park for the whole year. You will be expected to clean/rake the Park at

least three times per year and complete any other projects that you specify on your application. This application needs to be filled out and approved annually so that we can track our Park adoptions, give everyone a chance to Adopt-a-Park and recognize those who give back to our community through this program.

If you cannot commit to a full year adoption, there are still projects available. For instance, groups are needed to rake leaves in the Fall, paint shelters in the Spring and pick up trash in the Summer. Simply call us for guidance or fill out an application with your intended project and we will process it for approval.

Who provides the supplies for the projects?

The City can provide trash bags for clean ups, but we also need your help to provide many of the supplies. Community groups that can provide paint, plants and other supplies encouraged to donate. Call us for guidance.

What do we get in return for our hard work?

In addition to feeling good because you're helping the Huber Heights City Parks, all groups will receive recognition in the City's newsletter; and, in addition, groups that adopt for one full year will receive one free park shelter rental and recognition at a City Council Meeting.

Is there anything else I should know?

Make sure you let us know when you plan to do a project and then submit a simple Project Report after you're finished.
